APPOINTMENT DEPARTMENT.

COMMUNIQUE.

Calcutta, the 26th August 1924.

The Governor in Council has heard with deep regret of the death on the 24th August 1924, at the Presidency General Hospital, Calcutta, of Mr. Frank Roddis of the Indian (Imperial) Police Service.

Mr. Roddis was born on the 10th January 1877, and joined the Indian Police in the year 1897. Whilst a comparatively junior officer he was placed in charge of a heavy criminal district and was commended several times for his successful administration. Subsequently he did excellent work as Superintendent of the Assam-Bengal Railway Police. In 1912, he acted for a short period as Personal Assistant to the Inspector-General of Police, Eastern-Bengal and Assam, and was subsequently appointed to the charge of the East Indian Railway Police, where he maintained most friendly relations with the Railway Authorities. He was for over three years in charge of the political branch of the Criminal Investigation Department, Eastern-Bengal and Assam, and was appointed Personal Assistant to the Inspector-General of Police, Bengal, in 1913, in which capacity his work for more than five years was of a very high order. He was awarded the King's Police Medal in 1920; subsequently he served as Deputy Inspector-General of Police, Criminal Investigation Department, as Commissioner of Police, Calcutta, and as Deputy Inspector-General of Police, Presidency and Dacca Ranges. He was a most zealous and indefatigable worker, and his service throughout was distinguished by exceptional ability and merit. The Governor in Council desires to record his appreciation of the services rendered by the late Mr. Roddis to the State.

- (2) to provide for the establishment and constitution for any areas which in the opinion of the Air Council cannot suitably be administered through county joint associations constituted under the preceding paragraph, of auxiliary air force associations; and

2. The aforesaid power of His Majesty under section six of the principal Act shall be extended so as to include power to apply any enactments referred to in that section to the auxiliary air force, or to the officers or men of that force, with such modifications as may be necessary to make it a condition, on the acceptance of a commission as an officer or on the enlistment of a man in the auxiliary air force, that the person so commissioned or enlisted shall enter into an agreement to accept as an obligation the liability (whether or not the army or air force reserve is called out on permanent service) to be called out and to serve within the British Islands in defence of the British Islands against actual or apprehended attack, and to provide accordingly for the application of the provisions of section twenty of the Territorial and Reserve Forces Act, 1907, with the necessary modifications, to any such man who fails to fulfil such obligations as aforesaid.

3. - (3) to provide that a man who is liable to be called out and to serve in the circumstances mentioned in this section shall, when called out for such service be deemed to have been called out on permanent service, and to be subject to the Air Force Act accordingly; and
- (4) to provide for the enlistment of men into the air force reserve as special reservists with a liability to serve within the limits of the British Islands only.

4. An Order in Council made in pursuance of any of the foregoing provisions of this Act may make such supplemental and consequential modifications (if any) of the provisions of the Reserve Forces Act, 1882 to 1907, and the Territorial and Reserve Forces Act, 1907, including the provisions as to the service and publication of notices, as may appear to His Majesty in Council to be necessary or expedient.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bona fide* school masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

(4) Rangamati High English School ...	

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the head master of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 5th November 1924. The information to be given and the documents to be appended, in original, are the following:—

6. Every candidate must deposit his fee for the Test Examination with the head master of the institution in which he intends to appear, at least 15 days before the date of that examination. The head master will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The head masters of the institutions named in paragraph 3 above shall direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign the same in their presence. They will then grant the necessary certificates and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

The elections and bye-elections shall be held on such dates as may be fixed by Commissioner of the Division and notified by him in the *Calcutta Gazette*; and the Chairman shall, at least 30 days before the date fixed for election, give notice of the date, time and the place of polling within each ward in the manner prescribed in section 354 of the Act:

Provided that the Chairman shall have power, of his own motion or after considering such representations as he may receive, to alter the place of polling or to provide for more than one polling booths within the same place of polling in such wards in which it may be considered impossible to record all votes in one booth in one day.

23. Every person who is a candidate for election shall, either in person or by his proposer and seconder together, between the hours of 11 o'clock in the forenoon and 4 o'clock in the afternoon deliver to the Chairman or to such other person as may be authorised by him in this behalf, not less than twenty-one days before the day fixed for the election, a nomination paper in Form II annexed to these rules with necessary particulars duly filled up and subscribed by the candidate himself as assenting to the nomination.

24. The Chairman or other person authorised by him in this behalf shall, as he receives each nomination paper, enter therein its serial number and shall sign thereon a certificate stating the date on which and the hour at which the nomination has been delivered to him; and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination papers received, setting forth therein all the particulars given in the nomination papers.

25. Any nomination paper which is not received within the time hereinbefore prescribed for the nomination of candidates shall be rejected.

26. The Chairman shall appoint a date, not less than eighteen days before the day fixed for the election, for the scrutiny of nominations.

27. The Chairman shall on the last day for the submission of nomination papers cause to be published in a conspicuous place in the Municipal Office a notice specifying the date, hour, and place appointed for the scrutiny of the nominations and also inform the candidates of the same by post. 29. (1) The Chairman (or such other person authorised by him in this behalf in case he fails to attend) shall then examine the nomination papers of such candidates and shall decide all objections which may be made to any nomination, and may either on such objection or on his own motion, after such summary enquiry if any, as he thinks necessary, reject any nomination on any of the following grounds:—

- (i) that the candidate is not enrolled in the Municipal Electoral Roll as a voter, or
- (ii) that the candidate is disqualified for being a commissioner for any of the reasons set forth in section 57 of the Act, or
- (iii) that a proposer or seconder is disqualified from subscribing a nomination paper, or
- (iv) that the candidate's nomination paper does not comply with the provisions of rule 23,
- (v) that the signature of the candidate or any proposer or seconder is not genuine or has been obtained by fraud.

(2) Nothing contained in clause (iii), clause (iv) or clause (v) of sub-rule (1) shall be deemed to authorise the rejection of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

30. The Chairman (or such other person authorised by him in this behalf in case he fails to attend) shall endorse on each nomination paper his decision accepting or rejecting the same, and if the nomination paper is rejected shall record in writing in brief his reasons for such rejection.

31. Any candidate may withdraw his candidature by notice in writing subscribed by him within seven days of the date of scrutiny of nominations. A candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be re-nominated as a candidate for the same election.

32. The Chairman shall, on receiving a notice of withdrawal under rule 31, as soon as may be, cause a notice of withdrawal to be affixed in some conspicuous place in his office as well as in the ward to which the matter relates.

33. On completion of the scrutiny of nomination and after the expiry of the period within which candidatures may be withdrawn under rule 31, the Chairman shall forthwith prepare a list of valid nominations and cause the same to be affixed in some conspicuous place in his office and shall, in the manner indicated in section 351 of the Act, give notice thereof and also of the time and place at which and the hours between which the poll for each ward will be held.

34. If a candidate who has been duly nominated dies after the date appointed for the scrutiny of nominations, and before the date appointed for the taking of a poll, the Chairman shall, upon being satisfied of the fact of the death of a candidate, countermand the poll and report the fact to the Magistrate, and all proceedings with reference to the election shall be commenced anew in all respects as for a bye-election :

Provided that no fresh nomination shall be necessary in the case of a candidate who stood duly nominated at the time of the countermanding of the poll.

35. (1) If the number of candidates in a ward who are duly nominated and who have not withdrawn their candidature in the manner and within the time specified in these rules exceeds that of the vacancies in the ward a poll shall be taken within that ward.

(2) If the number of such candidates is equal to the number of vacancies, the Chairman shall declare all such candidates to be duly elected and report accordingly to the Magistrate.

(3) If the number of such candidates is less than the number of vacancies, all such candidates, if any, shall be declared to be elected.

36. The duties conferred on the Chairman by rules 23, 24, 26, 28, 29, 30 and 32 shall be performed by the Magistrate or any other persons authorised by him with regard to the election of the ward or wards in which the Chairman of the Municipality is a candidate.

Voting.

37. The Magistrate shall appoint a Presiding Officer for each polling station and such other persons (herein after referred to as "*Polling Officers*") to assist the Presiding Officer, as he thinks necessary : provided that no person who is a candidate for the election shall be appointed Presiding or Polling Officer.

38. If the Presiding Officer for any reason fail to attend, the Magistrate shall appoint another fit and proper person, who is not himself a candidate for election, to take his place.

39. It shall be the duty of the Presiding and Polling Officers to see that votes are recorded with the utmost secrecy, that the number on the voting paper handed over to a voter is not divulged to any candidate or his agent, that only such persons as may be admitted to the polling booth are admitted thereto, and that persons, who have recorded their votes, or against whom objections have been heard and allowed, leave immediately. It shall also be their duty to see that these rules and any special directions given by the Magistrate thereunder are strictly observed.

40. (1) The Presiding Officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

(a) the Polling Officers, the candidates, and one agent of each candidate (herein after referred to as the "*Polling Agent*") appointed in writing by the candidate ;

(b) the police or other public servants on duty ; and

(c) such other persons as the Presiding Officer may from time to time admit for the purpose of identifying voters.

(2) The Presiding Officer shall close the polling station at the hour appointed in that behalf under rule 33 so as to prevent the admission therein of any voter after that hour : provided that all voters present within the enclosure of the polling station before it is closed shall be entitled to have their votes recorded.

41. Each polling station shall be furnished with such number of compartments in which voters can record their votes screened from observation, as the Magistrate thinks necessary.

42. (a) The Chairman shall provide at the polling station in each ward materials sufficient for the purpose of enabling voters to mark the ballot papers, a sufficient number of printed ballot papers, as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the voters entitled to vote at such station.

(b) The official mark for stamping ballot papers shall be designed and prepared by the Magistrate and shall be kept secret by him and made over to the Presiding Officers before the polling.

43. Every ballot box shall be so constructed that the ballot paper can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The Presiding Officer at any polling station, immediately before the commencement of the poll, shall show the ballot box empty to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it within his sight for the receipt of ballot papers and keep it so locked and sealed.

44. Before the polling station in a ward is open for the recording of votes the Presiding Officer shall read to such persons as may be present the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, and shall explain the substance thereof in the vernacular of the district.

45. Votes shall be given by ballot in person and no votes shall be received by proxy.

46. Each voter shall be entitled to vote for the ward in which he ordinarily resides, and for no other, and to give as many votes as there are vacancies for such ward : provided that he must not give more than one vote to any one candidate.

47. The candidates and their agents shall not speak to or address any intending voter within the polling booth in a polling station but may submit to the Presiding Officer objections to a voter on the following grounds :—

First—that his name is not on the electoral roll of the ward in respect of which the election is being held.

Second—that his claim to be a certain voter shown on the electoral roll is false.

Third—that he has already voted.

Such objection shall be summarily decided by the Presiding Officer who may for this purpose obtain such evidence as may be available on the spot.

48. Immediately before a ballot paper is delivered to an intending voter entering the polling booth, he will be asked to state his name and description, and the ballot paper shall then be marked on the back with the official mark and the number of the voter shall be entered on the counterfoil, and a mark shall be placed in a copy of the electoral roll against the number of the voter to denote that he has received a ballot paper, but without showing the particular ballot paper which the voter has received. On the counterfoil shall be entered the name of the ward.

49. The voter on receiving the ballot paper shall forthwith be directed by the Polling or the Presiding Officer, as the case may be, to proceed into one of the compartments in the polling station, and there shall make a mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the back of the counterfoil paper, and fold it up so as to conceal his vote, and, after showing to the Presiding or the Polling Officer, as the case may be, the official mark, shall put his ballot paper, so folded up, into the ballot box. Every voter shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

50. If the voter, owing to illiteracy or infirmity, is unable to read a ballot paper or to make a mark thereon, the Presiding Officer shall mark the vote in the ballot paper according to the direction of the voter. The voter shall then himself, or with the assistance of the Presiding Officer, put the ballot paper folded up into the ballot box.

51. At any time before a ballot paper is delivered to a voter the Presiding Officer or the Polling Officer may, of his own accord, if he has reason to doubt the identity of the voter or his right to vote at such station and shall, if so required by a candidate or polling agent, put to the voter the following questions :—

(1) Are you the person enrolled as follows (reading the whole entry from the roll) ?
and

(2) have you already voted at the present election in this or any other ward in the capacity in which you now appear ?

and the voter shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative and the second question in the negative.

52. The ballot paper shall be printed by the Chairman in English or Bengali in Form III annexed to these rules and shall contain the names of the candidates arranged alphabetically in the order of their surnames. The ballot paper shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

53. If a person representing himself to be a particular voter named on the electoral roll applies for a ballot paper after another person has voted as such voter, the applicant

shall after duly answering such question as the Presiding Officer may ask be entitled to mark a ballot paper in the same manner as any other voter. Such ballot paper (hereinafter referred to as "tendered ballot paper") shall be of a colour different from the other ballot papers and instead of being put into the ballot box shall be given to the Presiding Officer and endorsed by him with the name of the voter and his number on the electoral roll and the name of the ward to which the roll relates and shall be kept in a separate packet and shall not be counted. The name of the voter, his number on the electoral roll and the name of the ward to which the roll relates shall be entered in a list in Form IV annexed to these rules, which shall bear the heading "*Tendered votes list.*" The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

54. If any candidate or polling agent declares and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the Presiding Officer may require such person to enter in the list of challenged votes (which shall be in Form V annexed to these rules) his name and address or if he is unable to write to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned in the manner provided in rule 51 answers the first question in the affirmative and the other question in the negative he shall be allowed to vote after he has been informed of the penalty for personation. The Presiding Officer shall make a note of the circumstances and of his decision on the list of challenged votes.

55. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the Presiding or the Polling Officer, as the case may be, and satisfying him of the inadvertence obtain another ballot paper in place of the spoiled paper, and the latter shall, together with its counterfoil, be marked as cancelled.

56. A Presiding Officer, Polling Officer or Polling Agent who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by the Chairman to be entitled to vote at the election for the ward in connection with which he is employed or for any other ward, be allowed to record his vote at that polling station. The name of the polling station at which he would otherwise have been entitled to vote shall be entered in the counterfoil of the ballot paper together with his number in the electoral roll for the ward in which that polling station is situated.

57. Such ballot paper shall be placed in an envelope and sealed by the Presiding Officer or the Polling Officer as the case may be and returned with the certificate referred to in the preceding rule to the Presiding Officer of the polling station concerned and the latter officer shall cause such vote to be included among the other votes.

58. On the conclusion of the poll the ballot box shall be opened and the votes counted in the presence of the candidates or their agents by the Presiding Officer with the assistance of the Polling Officers, and the Presiding Officer shall then and there declare subject to the provisions of rules 59 and 60 the result of the election and report accordingly to the Magistrate, who shall thereupon forward to the Divisional Commissioner a list of duly returned candidates for the whole municipality for publication by him in the *Calcutta Gazette*. The Presiding Officer shall also seal up the book of counterfoils and unused foil of voting papers and make it over to the Magistrate who shall keep it sealed in his own custody till it is destroyed under rule 63.

59. Any voting paper which is not duly marked with the official mark or on which more than one cross is placed against any candidate's name, or on which votes are given to more candidates than there are vacancies or on which a cross or mark is placed in such a manner as to make it doubtful to which candidate it has been given or on which any mark is made by which the voter may afterwards be identified shall be invalid.

60. If there be an equality of votes for the same vacancy, and if the number of vacancies does not admit of all the candidates who have obtained an equal number of votes being elected, the selection of one of the candidates shall be made by lot to be drawn by the Presiding Officer in such manner as he may determine.

61. (1) If any person is elected by more than one ward he shall by notice in writing signed by him and delivered to the Chairman within five days of the last date of the general election in the Municipality choose the ward which he shall serve and the choice shall be conclusive.

(2) When any such choice has been made the Chairman shall as soon as practicable call upon the ward or wards which such person has not chosen to serve to elect another person or persons in a bye-election.

(3) If the candidate does not make the choice referred to in sub-rule (1), the Chairman shall forthwith declare the ward which such person shall serve and shall as soon as practicable call upon the other ward or wards concerned to elect another person or persons in a bye-election.

62. When the voting papers have been scrutinised and counted, they shall forthwith be replaced in the ballot box from which they were taken out, and the box, after being locked and sealed with the official mark, shall be sent by the Presiding Officer to the Magistrate who shall keep the same in safe custody.

63. The packets of ballot papers and of tendered votes shall be retained for one year and shall thereafter be destroyed subject to any direction to the contrary made by the District Magistrate, or by a competent Court.

General.

64. All disputes arising under these rules shall be decided by the Magistrate and his decision shall be final. If he finds any material irregularity prejudicing the election, he may declare the election void and order a fresh election.

65. No person in the employment or pay of the Municipality shall, directly or indirectly, engage in canvassing for votes or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

66. All costs incurred in the preparation of the electoral roll, the publication of notices, the holding of election, or any other necessary action under these rules shall be payable by the Commissioners out of the Municipal Fund.

No. 10857A.—The 17th September 1924.—Whereas the Commissioners appointed under rule 36 (2) (a) of the Bengal Electoral Rules to enquire into the petition presented by Maulvi Abdul Hakim Mukhtar against the election of Mr. Altaf Ali to the Bengal Legislative Council have reported to His Excellency the Governor that they have permitted the said Maulvi Abdul Hakim Mukhtar, after application duly made, to withdraw his petition :

Now, therefore, in accordance with the provisions of rule 45 (3) of the said rules, the following report of the said Commissioners is published for general information. His Excellency the Governor is pleased further to order that in accordance with the recommendations of the said Commissioners, the petitioner shall pay to respondent No. 1, Mr. Altaf Ali, Rs. 150 as pleaders' fees and also the costs incurred by the said respondent in court and process fees and witnesses' expenses.

<i>versus</i>					
Mr. Altaf Ali	...	...	...	...	Respondent No. 1.
Dr. A. Suhrawardy, Bar.-at-Law	...	...	...	...	Respondent No. 2.

Report.

This was a petition made by the petitioner, Maulvi Abdul Hakim Mukhtar, for setting aside the election of respondent No. 1, Mr. Altaf Ali, to the Bengal Legislative Council by the Mymensingh East Muhammadan Constituency at the last general election. The petitioner and the two respondents were the rival candidates. The main ground on which this petition was made, was that the election of respondent No. 1 had been secured by corrupt practices and undue influence. The petition was opposed by respondent No. 1. After we had settled the points for determination, the petitioner, on the 23rd of

June last, applied to withdraw from the case. A notice of the application for withdrawal was accordingly published, under Rule 39 (3) of the Bengal Electoral Rules, in the *Calcutta Gazette*, dated the 9th of July last. On the 28th of July last the pleaders for the petitioner and the respondent No. 1 were heard, with reference to the application for withdrawal. The main ground on which the withdrawal was prayed for, was that the election petition was defective, inasmuch as the allegation that illegal gratification had been promised by respondent No. 1 to the petitioner was not a fact, as only a proposal to that effect had been made. It was also urged that, owing to the alleged illness of the respondent No. 2, Dr. A. Suhrawardy, the petitioner was unable to secure this respondent's evidence. In our opinion, there was no reason for withholding permission to withdraw, with reference to Rule 39 (4) of the Bengal Electoral Rules, and by our order, dated the 28th of July last, we accordingly granted the application for withdrawal, directing the petitioner to pay to the respondent No. 1 Rs. 150 as pleaders' fees and also the costs incurred by the respondent No. 1 in court and process fees and witnesses' expenses.

We, further, directed that a notice of the withdrawal was to be published in the *Calcutta Gazette*, under Rule 39 (5) (b) of the rules. That notice was published in the *Calcutta Gazette*, dated the 6th of August 1924, and the matter was put up before us to-day. As fourteen days have expired since the publication of that notice, as required under Rule 39 (5) (c) of the rules, and as no one has appeared to be substituted in the place of the petitioner, no further action is necessary on our part. We are, therefore, of opinion that the election petition should accordingly be treated as dismissed, with costs, as noted above, and we beg to recommend accordingly to His Excellency the Governor of Bengal.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for the purpose of affording greater protection to persons under the age of eighteen years was presented to the Legislative Assembly on the 10th September 1924 :—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for the purpose of affording greater protection to persons under the age of eighteen years, was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. One very radical change which we have decided to make in the Bill is the omission of clauses 6 and 7, which proposed to insert in the Code of Criminal Procedure, 1898, new clauses 552A, 552B, 552C and 552D and certain consequential amendments. These clauses contained provisions enabling Magistrates to rescue minor girls from surroundings in which they would be liable to moral contamination and to make them over to suitable guardianship. After detailed examination of these clauses, we have arrived at the conclusion that it would be necessary to amplify them by the insertion of provisions dealing carefully with such matters as maintenance and marriage, and that provisions of this nature are not suitable for inclusion in a Criminal Procedure Code. We think that adequate and satisfactory provision could only be made by a separate measure containing provisions similar to those of the English Children Act of 1908, and we strongly recommend that a Bill on those lines should be presented to the Legislature at as early a date as possible.

3. We have scrutinized the remaining five clauses of the Bill in minute detail, and have discussed them at considerable length. In the result, we have left them substantially unaltered. We propose only two amendments, one in clause 2 and the other in the second *Explanation* proposed to be inserted by clause 3 in section 372 of the Indian Penal Code.

The amendment in clause 2 is purely consequential upon the passing of Act V of 1924 which substituted the age of eighteen for the age of sixteen in sections 372 and 373 of the Indian Penal Code.

The amendment in clause 3 is a Drafting amendment designed merely to make more clear the intended meaning of the words "or communities, as the case may be," in the Bill as introduced. On the point of substance, we consider it desirable not to protect from the mischief of sections 372 and 373 of the Indian Penal Code persons who obtain, or help others to obtain, girls under the age of eighteen years with a view to their entering into a union which is not recognised as regular by the custom of the community or of both the communities, as the case may be, to which the parties to it belong. In arriving at this view we have rejected a suggestion that the only unions to be protected should be those between members of the same community and another suggestion that a union should be protected as long as it is sanctioned by the custom of the community of the girl who is one of the parties thereto.

4. The Bill was published in the Gazette of India, dated the 16th February 1924.

5. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

MINUTES OF DISSENT.

Explanation No. 1 to sections 3 and 4 do not cover the whole position. They leave loopholes which are likely to frustrate the real object of the Bill. Explanation No. 1 to section 3 runs as follows:—"When a female under the age of eighteen years is sold, *let for hire, or otherwise disposed of* to a prostitute or to any person who keeps or manages a brothel, etc., etc." Presumption as to the intention with which the minor is sold, let for hire, or otherwise disposed of would not extend to cases not covered by the words contained in the Explanation. The result would be that all prostitutes or brothel keepers who want to get hold of minor girls would do so, taking all precautions to show that they engage them as servants. For want of a legal presumption in such cases, it will be almost impossible for the prosecution to show that the real intention was not only service, but something else with a criminal liability.

The same objection holds good in the case of Explanation 1 to section 4, which contains the words "who *buys, hires or otherwise obtains possession* of a female under the age of eighteen years shall, until the contrary is proved, be presumed to have obtained possession of such female with the intent, etc., etc."

The words "obtain possession" cannot cover the case of engaging in service. The object of this Explanation can also be defeated in the same way, unless we add the words "is engaged in service" after the words "let for hire" in Explanation 1 to section 3, and add the words "engaged in service" after the word "hires". This is the only way to see the object of the measure fulfilled. Moreover, it is not very desirable to see young girls in the service of immoral girls or in immoral surroundings. In case it is satisfactorily proved that a particular case is that of service with no other underlying intention, the Magistrate concerned would decide in favour of the accused. It is absolutely necessary to raise a legal presumption of guilty intention in cases apparently shown to be of service only. Unless we do away with this loophole, this legislation would be perfectly ineffectual.

Section 5.—While dealing with sections 372 and 373 as compared with section 552 in so far as the question of age of consent is concerned, legislation has already allowed a difference of two years. Sections 372 and 373 as originally enacted protected minors under the age of sixteen; and while dealing with section 552 empowered Magistrates to restore minors under the age of fourteen only in case of detention for unlawful purpose. That was an anomaly. Following the same anomaly the present Bill keeps up that difference of two years, for which there seems to be no other reason excepting that such a difference already existed. The reason does not appeal to my mind. If the legislation is bent upon protecting minor girls, the age up to which a minor girl can be restored to the lawful guardian in case of her detention for an unlawful purpose should be the same, *i.e.*, eighteen and not sixteen. The legislation, if having a set object before it, should be consistent and not inconsistent.

GULAM BARI.

It looks to me that the words "at any age" occurring in clause 2 ought to be removed. It has no meaning if after the age of 18, a girl is employed, etc., for the purposes mentioned as she is free to act as she pleases.

13. No suit or other legal proceeding shall be instituted against any person in respect of anything which is in good faith done or intended to be done under this Act.

STATEMENT OF OBJECTS AND REASONS.

The Indian Cotton Committee which was appointed in 1917, in Chapter XVI of their Report recommended certain measures, including the licensing of cotton ginning and pressing factories, to prevent such malpractices as damping, mixing and adulteration, which are injurious to the quality and reputation of Indian cotton. The recommendations of the Committee, however, involved an excessive amount of official interference. The object of the present Bill is to put the trade in a position to protect itself by providing for the marking of bales and the record of ownership, and by providing further that unmarked bales are not tenderable in fulfilment of a contract, if marked bales are demanded by the purchaser.

The Bill also makes provision for the maintenance of registers for statistical returns, for the use of correct scales and weights, and for the structural improvement of ginning and pressing factories. The Bill is based on the recommendations of the Indian Central Cotton Committee, and is supplementary to the Cotton Transport Act, 1923.

REPORT OF THE COMMITTEE APPOINTED TO CONSIDER THE MEASURES WHICH SHOULD BE TAKEN TO CONDUCT AND CONTROL THE WORK OF THE HYDRO-ELECTRIC SURVEY IN BENGAL.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

No. 231.—*The 27th August 1924.*—The following report of the Committee, appointed in pursuance of Government Resolution No. 21, dated the 12th November 1921 (published at pages 2255-56 of the Supplement to the *Calcutta Gazette* of the 16th November 1921) to consider the measures to be taken to conduct and control the work of the hydro-electric survey in Bengal, is published for general information.

C. ADDAMS WILLIAM,

Secretary to the Government of Bengal.

REPORT OF THE COMMITTEE

appointed to consider the measures which should be taken to conduct and control the work of the hydro-electric survey in Bengal.

In Bengal Government Resolution No. 21., dated the 12th November 1921, the Government of Bengal appointed a Joint Committee comprised of members of the Public Works Department and the Department of Industries to consider what measures should be taken to conduct and control the work of the hydro-electric survey in Bengal. The Committee consisted of the following members:—

President.

The Chief Engineer, Irrigation Department.

Members.

The Director of Industries, Bengal.

The Electrical Adviser and Electric Inspector, Bengal and Assam.

The Committee was directed in the first instance to confine their attention to the Hill Tippera area round Comilla and Chittagong.

The Committee since their appointment in November 1921 have held three meetings, *viz.*, one on 8th July 1922, another on the 29th August 1923, and the third and final meeting on the 1st March 1924. The deliberations of the Committee were chiefly confined to the consideration of the information supplied by Mr. C. Grieve, temporary Engineer, who was specially appointed for the purpose of making the local investigations. At the first meeting of the Committee it was decided that surveys should be made to collect data in respect of the quantity of water available for power purposes in the Karnafuli river. Mr. Grieve commenced operations immediately after his appointment on 15th November 1922, but the survey proper did not commence until the end of January 1923. Mr. Grieve submitted two reports, together with ten photographs of the Barkal rapids and other drawings to illustrate his reports.

In his first report Mr. Grieve gave a description of the Karnafuli river and local conditions and stated that the total length of the main river is about 145 miles, of which the first 120 miles pass through very mountainous country covered with thick jungle, while the lower 25 miles pass through very flat low-lying land. There are four sets of rapids, *viz.*, Barkal (39' fall), Utan Chatra (8'), Burra Harim (7'), and Demargiri (Assam) (30'). This report was considered by the Committee at their 2nd meeting and it was agreed that the Karnafuli river was entirely unsuitable for the supply of power for commercial purposes but that in order to dispose of the question finally and so prevent money being wasted in future surveys, it was desirable to have all the facts before them. Accordingly Mr. Grieve was asked to pursue his enquiries and to take a few discharge observations with a view to estimating the supply available and then to stop further work in connection with the survey. The 2nd report submitted by Mr. Grieve is not, however, an exhaustive one, though he has briefly dealt with most of the points requiring consideration in a hydro-electric survey. Of the 4 sets of rapids on the Karnafuli the Barkal site was selected as the most suitable for the supply of electrical power to Chittagong. The reasons given are (a) that the site will be the cheapest and most economical, (b) that it will give the greatest amount of power, (c) that it allowed a large storage to be impounded which will give more than double the minimum discharge of the river in the dry season, (d) that it is the most accessible, and (e) that the geological formation admits of safe foundations.

With regard to the capacity of the proposed storage reservoir at this site he states:—

“Both the supply and bye-pass channels, being controlled by steel gates will take off at a level of 15' from the top of the dam, and this level would be the bottom of a storage reservoir 10' deep. As the river slope above Barkal is very gentle, this depth will give a reservoir with a capacity of about 2,000 million cubic feet, which would increase the natural discharge by some 240 cusecs for three months in the dry season.”

As regards the power obtainable from the proposed reservoir he says:—

“The total fall would be say 81' and the minimum discharge from natural flow and stored water works out to 400 cusecs throughout the year and this in round numbers gives 2160 K. W's. continuous power. The plant is never likely to work continuously and it will be accurate enough to assume a load factor of only 33 per cent. On this assumption 6480 K. W's. would be available for power and a plant of that capacity would have to be installed. It would then only remain for this power to be transmitted to the districts requiring it, though of course the transmission cost would be very high.”

This report and Mr. Grieve's proposals were considered by the Committee at their final meeting. The Committee are of the opinion that as the maximum demand at Dacca after ten years' working is 200 K. W's. only, it is improbable that Chittagong will ever require 6480 K. W's. Even if there was a market for such an amount of power at Chittagong it is doubtful if 6480 K. W.'s developed at Barkal can compete in price with a similar amount of power generated at Chittagong from oil or coal. It is not possible to make any definite statement without preparing comparative estimates, but it appears that the amount of power available is too small for the transmission distance and to pay for the costly works necessary for the project.

If there are any minerals within a few miles of the Barkal rapids and if the mines are worked, or if any chemical industry is started in the vicinity, the figures collected by Mr. Grieve will prove useful. His estimate of Rs. 25 lakhs for the whole scheme appears to be far too low.

The Committee desire to acknowledge the services of Mr. Grieve and commend the report to Government as it contains useful data which have been collected after careful investigation carried out in difficult country.

A. G. MAFLIN,

Secy. to the Committee.

ANNUAL REPORT
OF THE
ROYAL BOTANIC GARDEN AND THE GARDENS IN CALCUTTA
AND OF THE LLOYD BOTANIC GARDEN, DARJEELING,
FOR 1923-24.

ROYAL BOTANIC GARDEN.

1. **General.**—The year under review has not been altogether favourable from the horticulturist's standpoint. During the early part of the hot season, and again towards the end of the cold, there was an almost entire absence of rain in consequence of which the garden took on a parched appearance and a larger part of the labour force than is usually employed in caring for potted plants and beds in the open, had to be detailed to do watering work. This was the more unfortunate that labour itself was none too plentiful and that financial considerations dictated the strictest economy in its employ. The results of the prolonged periods of drought were not immediately apparent on trees and shrubs already well established, but a number subsequently dried and will require replacing.

The dry spell at the end of the year unfortunately gave opportunity for a form of damage that has become serious and much too frequent of recent years. Whether from visitor's thoughtlessly throwing away lighted matches or as a result of deliberate wickedness on the part of evil doers is difficult to say, but quite an abnormal number of fires have taken place of recent months. Some of them are difficult to account for on the assumption that accident was responsible.

Fires are not likely to break out spontaneously or accidentally on islands inaccessible to the visiting public, yet a large island in the King Lake suffered severely one night as a result of what must have been deliberate incendiarism. The object gained, whatever it may be, by this form of crime, must be satisfying for some malcontents but it is poor recompense for those who have laboured to make the garden a beauty spot for the crowds of visitors who now frequent it. A check kept at all the entrances to the gardens one day during the cold weather showed a total of 1,540 visitors.

In spite of the discouragements above mentioned routine work directed to keep the garden in a fit and proper state went on throughout the year, and a certain amount of garden improvement was also found possible. This took the form of rearranging and restocking some of the plant houses. The Orchid house in particular having become dense and overgrown stood most in need of attention. The rearrangement brought about has added greatly to its attractiveness in rendering it lighter and opener and in allowing the eye to take in the general effect at a glance. New beds and rockeries have been prepared while a number of desirable shade-loving species have been added to the collections. Similar work in certain of the remaining plant houses will be undertaken as opportunity and funds allow.

In last year's report mention was made of the very unsatisfactory condition of the garden roads. There being no special allotment available for the purpose it became imperative to divert part of the now reduced grant under contingencies to their renovation. They had reached a state when public disapprobation was justified and when indignation was already expressed in the form of side paths on the grass lawns running parallel with the main avenues. Although the funds could ill be spared from other urgent items of garden improvement, an amount sufficient to remake the whole length of the Banyan and to patch up other avenues, was put aside and the work completed. To keep the miles of road under modern conditions of traffic in a state befitting garden surroundings generally would

leave little available for the host of other improvements awaiting funds; so while work of this description is and can be done from garden funds proper at a time of financial stress it should be emphasised that to do so permanently can only result in stagnation of garden improvement as a whole. Needless to say while the roads were tackled nothing could be done towards revetment of the river bank, another perplexing and extra-neous drain on garden resources.

The general plant collections in the garden were reasonably well maintained. A display of *Cacti* and other succulents and of palm and ornamental foliage plants put up in the Eden Gardens in December and January was much visited and admired by the crowds who flocked to the exhibition. The display of cold weather annuals was quite up to standard as was also the collection of Orchids.

2. Plant and seed exchange.—Over 25,000 plants were distributed, of which 9,450 were trees for roadside and other planting, 6,900 were shrubs and about 7,000 palms and surplus annuals, the distribution being as usual to Government institutions, District Boards, Railways and Municipalities. Besides these, 200 packets and 40 lbs. of seed were distributed to various gardens, scientific departments and private individuals throughout the world. Over 2,400 plants, mostly Orchids and bulbs, were received. The annual supply of mahogany seed from the West Indies did not reach the garden in germinable condition.

During the year two magnificent specimens of mahogany trees went from the Garden to the timber section of the British Empire Exhibition. They must date from the early history of the Garden, the annual rings in one proving this specimen to be well over 100 years old. Reports received states that the logs were too heavy to be dealt with entire. The intention was to put them into sections suitable for handling and to piece these together at the exhibition. Visitors from Bengal will be able to view a product unequalled in its line which has taken their province over a century to produce.

3. Herbarium and Library.—This section was under the care of Mr. Debbarman to whose industry and helpfulness acknowledgments are due. Valuable assistance was also rendered by Mr. V. Narayanswami of the Botanical Survey Department. Besides routine work on small collections, the early identification of which alone satisfies correspondents, and the more difficult work of attending to the large collections awaiting examination, some 7,300 named species were put into the herbarium during the year. About 1,200 sheets were out on loan in connection with work on provincial floras. The publication of Mr. Burkill's "Flora of the Abor Expedition", a work which will run to at least three numbers of the Records of the Botanical Survey, is responsible for the holding back from publication of several papers of botanical interest, the result of work in the herbarium and library by members of the staff.

Library work has gone on as usual, the accessions being confined as far as possible to periodicals for which standing orders exist in order that arrears of library debts might be wiped off.

4. Publications.—No purely garden publications appeared during the year. The distribution of Part II of Volume XII of the Annals of the Garden, as well as the Appendix to Volume XI, is now almost finished. Arrangements for the publication by Professor Martelli of work left by Signor Beccari have been under discussion. It is hoped that funds will be available to continue the monumental work on palms which Signor Beccari's death interrupted.

5. Financial.—Out of a total budget allotment of Rs. 66,742 for staff and permanent establishment Rs. 55,098 were spent, leaving a saving of Rs. 11,644 which was effected mainly by Rs. 10,360 being saved under pay of Superintendent and Curator of the Herbarium. The temporary establishment allotment of Rs. 30,000 was utilised in full and from Rs. 27,120 granted under other heads Rs. 1,500 were saved. The net savings under all heads for the year amounted to Rs. 13,144. Revenue being sale proceeds of surplus plants and foreshore rent amounted to Rs. 3,916.

Staff.—Lieutenant-Colonel A. T. Gage, C.I.E., I.M.S., was on leave throughout the year, during which time the writer officiated as Superintendent. Mr. P. M. Debbarman officiated as Curator of the Herbarium, Mr. W. V. North was Curator, Mr. S. N. Basu, Assistant Curator and Mr. M. Jones, Overseer, throughout the year. The Head Clerk, Babu S. K. Mitra, was on leave from 2nd January 1924 till the end of the year during which time his place was conscientiously filled by the seventh clerk, Babu A. T. Banerji. All officers and the clerical staff have performed their duties satisfactorily.

CALCUTTA GARDENS.

Until preparations for the exhibition began, work in these gardens followed the routine of previous years. From December onwards the appearance of the Eden Gardens was completely changed and after the close of the Exhibition much work became necessary to repair the inevitable destruction that had taken place. Help, wherever it could usefully be given, was extended to the Exhibition authorities during the period they remained in the occupancy of the garden.

The Dalhousie Square Garden suffered to some extent by the operations of the Improvement Trust in widening the street. Mr. Mitra, the Assistant Curator in charge of these gardens, deserves praise for the manner in which he carried out his multifarious duties, his work for the horticultural section of the Exhibition in particular being worthy of mention. The allotment for all these gardens was Rs. 31,976 on which there was a small net saving of Rs. 104.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall for the year was about 26 inches in defect, but, as the rain was well distributed throughout the rainy season, this shortage was not productive of any ill effects. With regard to the work, the year may be characterised as one of severe struggle against adverse conditions. Apart from difficulties of a financial nature, against which the Lloyd Botanic Garden is having its struggle in common with many other departments, there have been difficulties of a nature associated with gardening in particular. Thus a simple order concerning milk on the part of the municipality had the effect—no doubt quite unsuspected by that body—of practically wiping out the trained malis of Darjeeling in so far as their garden work was concerned. A student of social conditions would find this a curious and interesting item of study, but it is a real hardship to one having charge of gardens, as the training of lads has to be commenced *de novo* and with unpromising, sometimes unwilling, material. There are also noticeable tendencies on the part of that class, from which malis used to be recruited, to drift from one occupation to another, to shun steady industry in a spirit of get-rich-quickly and to develop an attitude of impatience to restraint and discipline. Gardening is not a profession that can be taught in a few months, and the years of plodding work required to make any headway do not appeal to a class who see few and insufficient inducements offering and who may be feeling that changes are impending which may result in their being required to find employment other than that in which they will have trained themselves to be useful.

The above conditions notwithstanding, the Curator, Mr. Cave, has done best to maintain the garden and its collections of plants in good order and to add to the latter so far as possible. Stocks are again plentiful both for garden use and for distribution and it may be claimed that the garden is a place of pleasure and interest at any season of the year.

Some 136 species new to the garden were planted out and the collection and distribution of seeds of plants indigenous to the district continues. Requests for these seeds are now received from a world-wide area. One correspondent has informed another until facilities offered by the Lloyd Botanic Garden in the matter of procuring Eastern Himalayan seed would seem to have become generally known. It would be well that the facilities now offered were taken advantage of while the present Curator continues in office. With his retirement, now at no very distant date, Government loses an officer, whose knowledge of the local flora is unrivalled, and the botanical world services that would take one with aptitude for them years of industry to successfully render.
